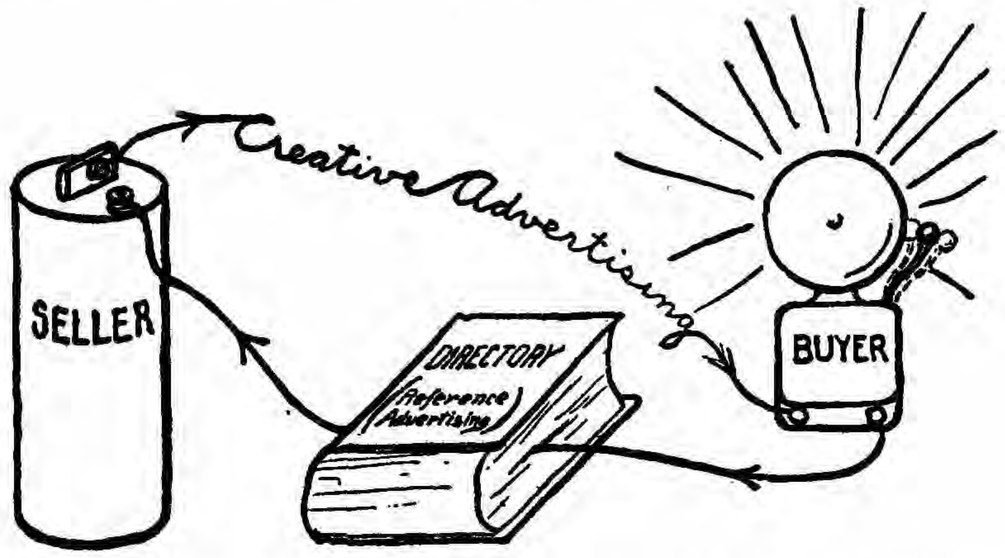
The Return Circuit in Advertising



The circuit must be completed before the bell will ring
The Buyer must find the Seller before a Sale is made

Creative Advertising—in newspapers, magazines, billboards, etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

This Directory is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

Have you made it easy for Buyers to find ***You?***

Directory Advertising Is National Advertising

Your Business on Record All Over America

Hundreds of Directory Libraries Can Give Your Advertisement National Circulation

Thousands of your potential customers are visiting the City Directory Libraries of the United States and Canada every month seeking sources of supply and other information. These library locations are advertised and publicized consistently and continually. These libraries are maintained by the Association of North American Directory Publishers through the courtesy of the members who keep them supplied with City Directories as part of their service to the public. Is your product or service properly registered in these libraries so that those looking may readily obtain the information desired? This library system is a sound economic feature that brings your product or service within the reach of millions at a cost to you that is surprisingly low in comparison with proven results. A folder, descriptive of this huge system of City Directory Libraries, together with a privilege card entitling you to the benefits of free usage, is yours for the asking, on your business letterhead. Apply either to your local Directory Publisher or to

You may be remembered a hundred years from now

It seems a long time in this era of change but it is a fact that the influence of our forefathers is often carried on for generations.

Especially in business and financial affairs is the record of the past liable to be of vast importance to the present.

The silent testimony of old directories is often accepted by courts as valuable evidence and too much care cannot be taken by business men to insure that all such records are accurate and complete.

Unlike most other mediums for advertising, the Directory is kept on file in many law and public libraries for years after its immediate usefulness as an address book has disappeared and it becomes a permanent record of the firms and individuals listed therein.

A very small sum insures adequate representation from year to year and such record may prove of great service at some future date.

Information in the mass

seems like a dull proposition

but when we have a need

of some person or thing

nothing interests us more than getting information about that person or thing

---

This directory

looks like a big book to be walked around or fallen over or put out of the way, ***until*** you need some information it contains, and then it becomes the handiest thing around the place.

You can never tell when you are going to want to know something this book will tell you. When you do, you will probably be in a hurry. Why not spend a little time looking it over, so when the need arises you will know just where to look?

It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and

you will increase your efficiency just that much

WATERVLIET AND GREEN ISLAND BUSINESS DIRECTORY

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

SAMPSON & MURDOCK CO., Inc.

Albany, N. Y. Boston, Mass.

Rochester, N. Y. Syracuse, N. Y. Troy, N. Y. Providence, R. I.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
